

154.107(b) of the Commission's regulations so that it may be allowed to use rates for Capacity Reservation and Authorized Overrun Charge stated in Dollars per Barrel per Day.

Algonquin LNG states that the Per Barrel rate most accurately reflects the use of the storage facility. In addition, Algonquin LNG states that it is also the basis upon which the rates were designed and that its storage Per Barrel rates do not contravene the intent of Order No. 582.

Algonquin LNG's waiver request is in response to the Commission's Letter Order of December 20, 1996, accepting certain tariff sheets filed November 26, 1996, in Docket No. RP97-99-000, to comply with the Commission's Order Nos. 581 and 582. The December 20 Letter Order also required Algonquin LNG to submit an explanation as to why it has not filed to reflect all rates on a thermal basis or to request a waiver of Section 154.107(b) of the Commission's regulations.

Any person desiring to protest said filing should file a protest with Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules of Practice and Procedures. All such protests should be filed on or before March 27, 1997. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.
